

HIPAA

Our outstanding team of healthcare attorneys leverage their comprehensive understanding of HIPAA, The Health Insurance Portability and Accountability Act, to ensure compliance with security and privacy requirements for healthcare information. Healthcare providers of all stripes rely on Nelson Hardiman to implement compliance plans and to defend investigations and enforcement actions relating to HIPAA violations.

Related federal and state privacy and security requirements can quickly become complex, and we've handled them all. We advise on compliance with HIPAA Administrative Simplification Rules. We ensure compliance the Health Information Technology for Economic and Clinical Health ACT (HITECH). We counsel California providers to ensure they are HIPAA and Confidentiality of Medical Information Act (CMIA) compliant. We respond to patient complaints, and defend lawsuits and administrative disciplinary actions. When it comes to HIPAA and related laws addressing patient privacy and the transmission of health information, Nelson Hardiman has the knowledge and experience to meet every challenge.
