LOS ANGELES, Calif., June 1, 2023 – Healthcare law firm Nelson Hardiman LLP will present the third in its five-part webinar series analyzing the history, progression, and future of healthcare privacy on Tuesday, June 13 beginning at 12 noon PDT.

The series, *So You Thought You Knew Healthcare Privacy...*, is a relaxed but frank discussion about the current state of healthcare privacy, how we got here, and what the future could hold. It is hosted by founding partner Harry Nelson and attorney Adella Katz.

This next session of the webinar series – “A New Sheriff in Town: The Groundbreaking Emergence of the FTC in Privacy Enforcement” – will explore the Federal Trade Commission's role in protecting health information in areas that HIPAA cannot touch, including direct-to-consumer healthcare apps, booming healthcare technology, and even artificial intelligence. What has been the impetus for the FTC's grand entrance into the health information arena? What does regulation look like so far? How will it change with the boom of artificial intelligence?
