

Wilderness Therapy & Insurance Billing: The Dos and Don'ts From a Healthcare Attorney's Perspective

The Symposium brings a diverse cross-section of clinicians, field instructors, rites of passage guides, educational consultants, professors, research specialists, students and residential programs staff under one roof to share theories, insights and best practices in an open spirit. We do this to improve ourselves and the therapeutic services we provide. The symposium offers us a place to explore, inform, and educate ourselves on a diverse range of topics all centering on wilderness therapy.

Speaker: John A. Mills

Event: 2018 Wilderness Therapy Symposium

Date: August 23-25th, 2018
