

The Advanced Economic State of Cannabis

As the U.S. market continues to develop, the *Green Market Report* invites you to discuss the advanced economic state of cannabis at the [Green Market Summit](#) in Chicago, Illinois on May 7, 2019. This special one-day symposium will discuss the continued development of the U.S. cannabis market, as well as the effect that the 2018 Farm Bill's passage has had on the industry.

Exclusive data and economic analysis will be unveiled throughout the day with a focus on 5 key sectors of the industry. Data and insight will be provided by our official event data partners that include deep dives into the big data and analytics driving the industry, as well as experiential trend observations from the industry's leading business and economic minds.

[Aaron Lachant](#), Partner and CEO of [MMLG](#), and [Harry Nelson](#), Co-Founder and Managing Partner at Nelson Hardiman will be presenting.
